The craftsmanship and artistry of ancient earthenware techniques used by Japanese artists transcend into modern, functional art. The sculptural foundation of the Harleen is composed of white ricestone composite, which is interlocked with a contrasting graphite ricestone accent. The exaggerated U-shaped cutout in the center allows for light and shadows to uniquely play off its negative space. Topped with a white microfiber drum shade with white cotton lining and an antique brass sphere finial. Complete with a taupe cloth cord. Finish will vary.
