

Description

SIT Steel Abrasive Nylon Cup Brush 50mm x M6 is engineered for precise surface treatment applications such as cleaning and deburring tasks. It features a robust steel construction with abrasive filament designed to operate reliably up to 4500 RPM. The brush offers consistent performance and is well suited for industrial and trade professionals seeking dependable material preparation solutions. Its silver and orange finish allows for clear visual identification during routine maintenance tasks.

Features

- Constructed with durable nylon cups using steel for reliable cleaning
- Abrasive filament wires enhance material removal at high speeds
- Operates efficiently indoors and outdoors with versatile performance
- Achieves speeds up to 4500 rpm for demanding tasks
- Engineered with precision for improved material surface preparation
- Silver and orange finish provides clear identification
- Offers controlled abrasive action for efficient cleaning performance
- Precision design for rigorous cleaning applications

Product Code: BT50A

Specifications

Outdoor Use	Yes
Indoor Use	Yes
Hardware Included	No
Max RPM	4500
Wire Style	Abrasive Filament

Appearance

Product Colour	Silver/Orange
