

Description

SIT Steel Boiler Tube Brush 76mm x 1/2 is a specialised cleaning tool designed for maintenance professionals in trade and technical support fields. Crafted from high quality steel, its construction offers durability and precise cleaning performance. The silver finish aids in corrosion resistance while the steel wire design effectively removes scale and debris. Suitable for both indoor and outdoor applications, it supports routine upkeep and operational reliability for those managing complex maintenance tasks.

Features

- High-quality steel construction for robust cleaning performance
- Precision-engineered brush for efficient boiler tube maintenance
- Silver finish provides clear visual inspection
- Versatile usage suitable for both indoor and outdoor tasks
- Durable steel bristles ensure lasting tube cleaning
- Robust build designed for repetitive cleaning cycles
- Engineered brush geometry for thorough tube contact
- Engineered dimensions support efficient boiler tube cleaning operations

Product Code: BTB76

Specifications

Outdoor Use	Yes
Indoor Use	Yes
Hardware Included	No
Wire Style	Straight Wire Filament
