

OIL CAN FIXED SPOUT 600ml

C032 CESCO OIL CAN FIXED SPOUT 600ml is a durable lubricant tool designed for DIY enthusiasts who value precision and technical performance. Engineered with high-quality Galabond and brass components, it offers a reliable fixed spout for accurate oil delivery. Its easy-priming system ensures consistent operation, while the powder coated finish provides enhanced durability. Australian made standards guarantee robustness, making it ideal for maintenance tasks and machinery lubrication.

Key Features:

- Constructed with high-quality Galabond and brass components for robustness and lasting durability.
- Features easily primed mechanism and retains priming advantage in varied temperatures.
- Powder coated finish improves resistance to wear and adverse environmental conditions.
- Australian made design with reliable brass internal components for superior lubricant delivery.
