

Description

Easyroll Ball Transfer Roller 45kg is an indoor conveyor component engineered from carbon steel in a silver, black and grey finish. It is designed to facilitate smooth, low-maintenance transfer of items within controlled handling systems. With a capacity of 45kg, it delivers precise and reliable operation during automated processes and distribution tasks. Trade professionals benefit from its robust construction and efficient performance in optimising material movement and overall productivity.

Features

- Smooth ball transfer mechanism on durable carbon steel platform
- Available in distinct silver, black and grey variants
- Supports efficient handling of diverse load types
- Precision engineered for consistent operational performance
- Engineered with robust carbon steel structural integrity
- Customisable design for flexible application integration
- Minimal friction ensures reliable, smooth material transit
- Easyroll quality ensures durable performance over time

Product Code: CBT45

Specifications

Outdoor Use	No
Indoor Use	Yes
Hardware Included	No
Assembly Required	No

Appearance

Product Colour	Silver
----------------	--------

Construction

Product Material 1	Carbon Steel
--------------------	--------------

Weights

Product Weight (grams)	140
Product Weight (kg)	0.14
Load Capacity kg	45.0
Load Capacity (kg) sqm	200

Dimensions

Product Height (mm)	31
Product Width (mm)	69
Product Length (mm)	100
Mounting Hole Centre (mm)	57
Mounting Hole Size (mm)	6
