

## Description

Easyroll 592mm x 3.8m Steel Roller Expandable Conveyor is a roll system engineered for efficient product transport within professional trade settings. Constructed using zinc and equipped with thermoplastic rubber wheels, it offers precise manoeuvring and adaptable space utilisation. Its grey finish delivers a consistent appearance. The expandable design supports seamless integration into organised workspaces, providing practical conveyance and valuable efficiency for professionals managing active logistics and operational processes.

## Features

- Expandable design allows adjustable conveyor lengths
- Zinc construction provides durable framework and corrosion protection
- Thermoplastic rubber wheels deliver reduced friction and noise
- Steel frame ensures robust structural integrity and strength
- Compact design enables precise integration with existing systems
- Simplified installation supports quicker setup and maintenance
- Grey finish offers a subtle, professional aesthetic
- Designed for indoor use supports consistent stable performance

**Product Code: CE592RS**

## Specifications

Outdoor Use	No
Indoor Use	Yes
Hardware Included	No
Assembly Required	Yes

## Appearance

Product Colour	Grey
----------------	------

## Construction

Product Material 1	Zinc
--------------------	------

## Weights

Product Weight (grams)	95,000
Product Weight (kg)	95
Load Capacity (kg) sqm	200

## Dimensions

Product Height (mm)	620
Product Width (mm)	592
Product Length (mm)	3800
