

Description

Easyroll Conveyor 450mm Frame Centre Support Width is a conveyor cross bar built to support precise material handling within controlled indoor facilities. The component features a robust carbon steel structure and is finished in grey for a clean appearance. Paired with dependable urethane wheels, it delivers consistent performance, accurate load management and straightforward integration into existing setups. This design offers practical benefits and reliable support for trade professionals seeking efficient conveying solutions.

Features

- Constructed from durable carbon steel for consistent performance
- Engineered design provides steady conveyor operation
- Smooth rolling urethane wheels reduce friction on movement
- Simple uniform grey finish suits controlled environments
- Precise dimensions ensure exact fit within conveyor assemblies
- Reliable performance maintained by high quality carbon steel material
- Engineered for indoor use with secure cross bar design
- Designed to reduce downtime and simplify routine maintenance

Product Code: CFAK0450C

Specifications

Outdoor Use	No
Indoor Use	Yes
Hardware Included	No
Assembly Required	Yes

Appearance

Product Colour	Grey
----------------	------

Construction

Product Material 1	Powder Coated Steel
