

Description

Easyroll Conveyor 600mm Frame Centre Support Width is a set of precision-engineered conveyor cross bars designed to provide central support for conveying systems. Made from carbon steel and finished in grey, these cross bars deliver dependable alignment and operational durability for indoor use. They offer clear technical advantages by enhancing the stability and efficiency of material handling processes for trade professionals while ensuring a straightforward integration into existing systems.

Features

- Made of robust carbon steel for lasting strength
- Grey finish for a refined appearance
- Tailored for indoor conveyor integration
- Precision produced cross bars maintain uniform conveyor operation
- Easyroll brand ensures proven design and reliability
- Designed for rapid assembly within conveyor frameworks
- Engineered for consistent performance in demanding operations
- Specified for 600mm frame centre support integration

Product Code: CFAK0600C

Specifications

Outdoor Use	No
Indoor Use	Yes
Hardware Included	No
Assembly Required	Yes

Appearance

Product Colour	Grey
----------------	------

Construction

Product Material 1	Powder Coated Steel
--------------------	---------------------

Weights

Product Weight (grams)	780
Product Weight (kg)	0.78

Dimensions

Product Height (mm)	40
Product Width (mm)	80
Product Length (mm)	546
