

Description

Easyroll Conveyor 600mm Frame Tube Connector Width is a robust carbon steel cross bar designed for ease of assembly in conveyor systems. It features a grey finish that meets practical functional requirements, making it well suited for applications in trade and industrial settings. The connector enhances overall framework stability and facilitates accurate alignment, providing users with a reliable option for integrating with existing systems while supporting precise operational functions.

Features

- Rugged carbon steel construction enhances cross bar durability
- Neutral grey finish provides unobtrusive workplace aesthetics
- Precisely engineered for accurate alignment and operation
- Reliable design withstands regular conveyor use
- Secure frame connection supports stable conveyor configuration
- Built for fast, straightforward installation and maintenance
- Precise fabrication ensures repeatable, standardised cross bar dimensions
- Simple design minimises downtime and servicing efforts

Product Code: CFAK0600J

Specifications

Outdoor Use	No
Indoor Use	Yes
Hardware Included	No
Assembly Required	Yes

Appearance

Product Colour	Grey
