

Description

Easyroll Conveyor 1500mm Left Right Side LE is a reliable indoor conveyor frame constructed from carbon steel and finished in grey. It is designed for precise material handling in production and assembly processes, offering clear structural integrity and ease of maintenance. Trade professionals benefit from its straightforward engineering, which supports organised workflow and efficient operation in controlled production environments. Its robust build ensures dependable performance during regular use.

Features

- Constructed from carbon steel for robust durability
- Grey finish provides a clean, modern appearance
- Designed for indoor conveyor applications
- Left right side design enables easy installation
- 1500mm length accommodates varied conveyor line layouts
- Engineered for reliable performance during constant operation
- Simple design supports straightforward mounting and installation
- Easyroll quality ensures precise engineering and durability

Product Code: CFAK1500S

Specifications

Outdoor Use	No
Indoor Use	Yes
Hardware Included	No
Assembly Required	Yes

Appearance

Product Colour	Grey
----------------	------

Construction

Product Material 1	Powder Coated Steel
--------------------	---------------------

Weights

Product Weight (grams)	6,200
Product Weight (kg)	6.2

Dimensions

Product Height (mm)	93
Product Width (mm)	27
Product Length (mm)	1500
