

Description

Easyroll Conveyor 1500mm Left Right Side LE is a robust conveyor frame constructed from carbon steel and designed for versatile indoor material handling applications. It provides a stable platform for moving items efficiently in trade and industrial processing environments. The design ensures precise alignment and reliability during use, contributing to effective workflow management for professionals seeking straightforward, practical solutions for their operational requirements.

Features

- Durable carbon steel provides robust conveyor frame construction
- Grey finish enhances visual consistency in busy operations
- Engineered for reliable performance with precise frame geometry
- Design fits easily into production workflows
- Easyroll quality ensures dependable long-term operation
- Lightweight yet strong structure supports efficient conveyance
- 1500mm frame length meets common conveyance requirements
- Left and right side options offer flexible system layouts

Product Code: CFAK3000S

Specifications

Outdoor Use	No
Indoor Use	Yes
Hardware Included	No
Assembly Required	Yes

Appearance

Product Colour	Grey
----------------	------

Construction

Product Material 1	Powder Coated Steel
--------------------	---------------------

Weights

Product Weight (grams)	12,600
Product Weight (kg)	12.6

Dimensions

Product Height (mm)	93
Product Width (mm)	27
Product Length (mm)	3000
