

Description

Cesco 174mm Offset Spout Funnels is produced by CESCO using durable tinfoil with a silver finish. This product serves to manage the flow of liquids or granular materials effectively. It offers a demountable, straight sprout, integrated filter and included hardware to provide ease of use during applications that require precise material guidance. Designed for both indoor and outdoor use, it supports the practical needs of trade and maintenance professionals.

Features

- Constructed from robust tinfoil for prolonged durability
- Silver finish optimises corrosion resistance and appearance
- Suitable for both indoor and outdoor applications
- Features integrated hardware for reliable assembly
- Design includes a demountable sprout for flexible use
- Equipped with filter for improved material separation
- Straight sprout design facilitates precise funnel operations
- CESCO funnel delivers reliable performance for varied tasks

Product Code: CFO174
