

Description

Cesco 254mm Straight Spout Funnels provide a reliable method for transferring liquids and powders with precision and efficiency. Constructed from tinfoil and finished in silver, these funnels are designed for both indoor and outdoor applications in trade settings. Their demountable sprout and integrated filter enhance usability and control, while the included hardware ensures easy set-up and maintenance. This product meets the practical needs of professionals seeking effective, straightforward liquid handling solutions.

Features

- Durable tinfoil construction with a silver finish
- Suitable for both indoor and outdoor use
- Includes essential hardware for secure installation
- Straight spout design for precise material flow
- Demountable sprout enables simple cleaning and replacement
- Integrated filter enhances separation and material control
- Robust design ensures dependable performance in varied conditions
- Engineered for straightforward handling and efficient operation
