

Description

Easyroll Conveyor 300mm H Stand Centre Support Width is designed for securing conveyor systems in controlled internal settings. Manufactured in carbon steel with a grey finish, these conveyor cross bars offer stable alignment and consistent performance for material handling processes. The product provides a practical approach to maintaining precise movement and support in varied applications for trade professionals. Its robust construction contributes to continued reliability and efficient operation in technical settings.

Features

- Robust carbon steel construction ensures long service life
- Precisely engineered for efficient conveyor crossbar operation
- Grey finish matches indoor workspace aesthetics
- Proven Easyroll design supports consistent performance
- Meticulous dimensions ensure accurate alignment and movement
- Durable design provides reliable conveyor support
- Simplified design speeds system installation
- Engineered for secure stable crossbar support

Product Code: CSHK0300C
