

Description

Easyroll 22mm Round M12 Expanding Adaptors are precision engineered for reliable castor integrations. Constructed from durable polypropylene with a grey finish, these adaptors utilise an expanding pintle design that ensures secure and consistent adjustment for equipment assemblies. Their practical design offers ease of installation and long-lasting performance, making them a valuable tool for trade professionals seeking straightforward, effective solutions in maintenance and assembly operations across various settings.

Features

- Constructed from durable polypropylene for reliable performance
- Round design with expanding pintle fitting for secure adapter
- Suitable for castor integration with straightforward installation and use
- Compatible with indoor and outdoor usage environments
- Grey finish provides standard visual integration with equipment colours
- Engineered adaptor ensuring accurate pintle operation
- Simple design for quick integration into existing castor systems
- Smooth tubing shape provides efficient connection through round profile

Product Code: E12R22

Specifications

Fitting Type	Expanding Pintle
Outdoor Use	Yes
Indoor Use	Yes
Hardware Included	No
Suitable For	Castor
Tube Shape	Round

Appearance

Product Colour Grey

Construction

Product Material 1 Polypropylene

Dimensions

Product Length (mm)	75
Mounting Size (G) mm	M12
Suits Tube ID (mm)	19
Suits Tube OD (mm)	22

Weights

Product Weight (grams)	13
