

Description

Fasty 3.5M x 25mm Tie Down Straps 400kg are designed for securing items during transportation by utilising a robust steel mechanism paired with durable polyester webbing. They offer dependable performance by incorporating a pvc bag with a cardboard header, ensuring even load distribution in diverse logistical operations. The straps provide valuable efficiency to trade professionals by facilitating reliable and secure load restraint, making them an essential component in everyday commercial handling tasks.

Features

- Durable construction with steel mechanism and polyester webbing
- PVC bag header ensures secure load handling
- Black finish provides a professional utilitarian appearance
- 3.5m length offers extensive tie down versatility
- 25mm width design enhances reliable load distribution
- Rated at 400kg for robust performance under tension
- Suitable for outdoor and indoor applications for flexibility
- Engineered for reliable load retention and simple operation

Weights
