

Description

Easyroll 2.5x4" Pneumatic Foam Filled Wheel Steel Centred 20mm Bearing 75kg is a pneumatic wheel featuring a steel wheel core with a pneumatic outer material and a ball bearing housed in a steel hub. Designed for trade professionals, it provides reliable movement and precision load handling across various settings. The black and red finish adds a professional, unobtrusive appearance suitable for efficient operational performance.

Features

- Foam filled structure increases puncture resistance and load stability
- Steel core construction provides robust and stable performance
- Precision ball bearings enable reliable, low-friction rotation
- Steel hub and bearings deliver reduced wear over time
- Four-ply design supports substantial load handling capability
- Black and red finish improves visual identification
- Operable indoors and outdoors under variable conditions
- Supports load capacity up to 75kg for reliable service

Product Code: FPW2.50-

Specifications

Bearing Type	Ball Bearing
Ply Rating	4
Outdoor Use	Yes
Indoor Use	Yes
Hardware Included	No

Weights

Load Capacity kg	75.0
------------------	------

Appearance

Product Colour	Black/Red
----------------	-----------

Construction

Wheel Core Material	Steel
Wheel Material	Pneumatic
Bearing Material	Steel
Hub Material	Steel

Dimensions

Tread Width	40
Axle Bore ID (F)	20
Wheel Width (C)	58
Wheel Diameter (A)	220

Weights

Product Weight (grams)	1438
Product Weight (kg)	1.438
