

SIT Steel Crimped Wire Wheel 18mm x M6

Description

SIT Steel Crimped Wire Wheel 18mm x M6 is engineered for precision cleaning, deburring and surface preparation. Constructed from durable steel with a crimped wire design, it operates reliably at speeds up to 18000 RPM. The silver and red finish reflects its robust construction and suitability for both indoor and outdoor use. This tool offers practical technical advantages to trade professionals by contributing to efficient, consistent performance in routine maintenance and operational tasks.

Features

- Durable steel brush for precise cleaning tasks
- Designed for high-speed operation at 18000 rpm
- Crimped wire design enhances durability and consistency
- Contrasting silver and red design improves product visibility
- Suitable for indoor and outdoor cleaning applications
- Engineered for precision cleaning on various surfaces
- Robust design endures demanding applications
- Precision engineered components ensure consistent performance

Product Code: GG21
