

Description

SIT Steel Crimped Wire Wheel 64mm x M6 is a precise crimped wheel brush designed for efficient material removal and surface refinement. Its crimped steel wire, presented in a silver and red finish, withstands high-speed rotation up to 15000 RPM. The robust design promotes consistent performance during cleaning tasks, optimising maintenance routines. This tool offers professionals a practical solution for achieving smooth surfaces in both indoor and outdoor settings.

Features

- Durable steel bristles for demanding surface preparation
- Crimped wire design supports consistent material treatment
- Operates reliably up to 15000 revolutions per minute
- Silver and red finish for clear visual identification
- Suitable for both indoor and outdoor operations
- Engineered for consistent performance in practical applications
- Precision crimped wire offers enhanced material engagement
- SIT quality ensures longevity and sustained user satisfaction

Product Code: GG64
