

## Description

Easyroll 100mm Cast Iron Fixed Plate I2 Series Castor 225kg is constructed with a cast iron wheel and wheel core integrated into a steel housing with a plain bearing system. It employs a plate mount fitting with a plate swivel total brake, ensuring controlled movement and secure positioning. Engineered for use by industrial and trade professionals, it offers consistent performance and a load capacity of 225kg for reliable equipment placement.

## Features

- Reliable cast iron wheels for prolonged durability and heavy loads
- Robust steel housing with plain bearing ensuring smooth swivel movement
- Total brake attachment enhances manoeuvrability during positional adjustments
- Plate mount design simplifies installation and maintenance
- Cast iron construction supports weight capacity up to 225kg
- Plain bearing mechanism ensures reliable performance over extended use
- Single raceway design provides efficient load distribution and balance
- Constructed in grey and silver for an understated professional appearance

**Product Code: I23A16G100**

## Specifications

Outdoor Use	No
Indoor Use	Yes
Bearing Type	Plain Bearing
Raceway Type	Single
Brake Type	Total
Attachments	Plate Swivel Total Brake

## Appearance

Product Colour: Grey/Silver

## Construction

Wheel Core Material	Cast Iron
Wheel Material	Cast Iron
Housing Material	Steel
Bearing Material	Steel

## Weights

Product Weight (grams)	1544
Product Weight (kg)	1.747
Load Capacity kg	225.0

## Dimensions

Product Length mm	157
Product Width mm	77
Product Height mm	125
Wheel Diameter	101
Tread Width mm	33
Mounting Hole Dimensions mm	10.3x10.3
Hole Centre Dimensions mm	127x45
Plate Dimensions mm	157x77
