

Description

Easyroll 100mm Bolt Hole I4 Series Castor 100kg is engineered for efficient load handling in commercial and trade settings. Its steel housing, polypropylene wheel core and thermoplastic rubber wheel deliver consistent performance while stainless steel plain bearings ensure smooth rotation. The bolt hole fitting provides a secure attachment and the single raceway design maintains optimal load distribution. The castor's technical construction offers reliable movement and durability, making it a practical solution for professionals managing material transport.

Features

- Robust steel housing ensures durable load support
- Stainless steel bearings provide smooth quiet rotation
- Plain bearing design supports low-maintenance operation
- Thermoplastic rubber wheel offers reliable traction
- Single raceway design minimises friction during movement
- Bolt hole fitting streamlines castor installation
- Engineered for outdoor applications with robust construction
- Designed for 100kg load capacity for reliable transport
