

Description

Easyroll 150mm Cast Iron Fixed Plate J3 Series Castor 410kg is engineered for use by trade professionals requiring reliable movement of equipment. Featuring a cast iron wheel and core paired with a steel housing and ball bearings, it offers consistent operational performance across applications. The plate mount design incorporates a swivel total brake for controlled application in both indoor and outdoor settings. Built with precision, it supports effective equipment handling and efficient technical operation.

Features

- Cast iron wheels enhance durability for heavy load applications
- Steel housing and ball bearings reduce wear over time
- Fixed plate mount ensures secure attachment to work surfaces
- Total brake mechanism provides complete movement control
- Single raceway design supports consistent wheel alignment
- Plate swivel attachment allows versatile directional adjustments
- Adaptable for outdoor and indoor use in various settings
- Structural design supports loads up to 410kg safely

Product Code: J33AZ82K150

Specifications

Outdoor Use	Yes
Indoor Use	Yes
Bearing Type	Ball Bearing
Raceway Type	Single
Brake Type	Total
Attachments	Plate Swivel Total Brake

Appearance

Product Colour	Black/Silver
----------------	--------------

Construction

Wheel Core Material	Cast Iron
Wheel Material	Cast Iron
Housing Material	Steel
Bearing Material	Steel

Weights

Product Weight (grams)	3290
Product Weight (kg)	3.29
Load Capacity kg	410.0

Dimensions

Product Length mm	150
Product Width mm	110
Product Height mm	191
Wheel Diameter	150
Tread Width mm	50
Mounting Hole Dimensions mm	17x11
Hole Centre Dimensions mm	105x80
Plate Dimensions mm	135x110
