

Description

KNAACK Monster Box Chest is a robust work storage chest constructed from steel with a powder coated finish. It incorporates an integrated lock, two handles and six skids for secure and mobile storage of work tools and equipment. Engineered with a 16-ga steel body and 7-ga skids, this chest provides practical storage solutions and supports efficient organisation for trade professionals in both indoor and outdoor settings.

Features

- Robust 16-ga steel chest with 7-ga reinforced skids
- Powder coated finish provides corrosion protection for extended use
- Integrated lock secures access when storing valuable tools
- Dual handles offer easy portability across work sites
- Designed for indoor and outdoor applications
- Precise engineering supports efficient tool storage and organisation
- Sleek tan finish adds professional appearance to workspaces
- Engineered design delivers durability in heavy work scenarios
