

Description

Precision Brand Square Key Steel 12x12mm Metric Stainless Steel is an engineered component crafted from 303/304 stainless steel with a silver finish and integrated hardware. It is designed for secure and precise connections in mechanical assemblies, promoting accurate load transfer between components. The key steel's metric dimensions enable a reliable fit for various applications, offering efficiency and dependable performance for trade professionals. Its straightforward design contributes to consistent operation and long-lasting durability.

Features

- Manufactured from 303/304 stainless steel for reliable performance
- Precision engineered for accurate key steel dimension measurement
- Compact 12x12 mm square design for efficient space use
- Suitable for indoor installations and precision technical applications
- Durable silver finish enhances corrosion resistance and aesthetics
- Integrated hardware streamlines key steel installation process
- Metric dimensions for precise compatibility with modern equipment
- Engineered by Precision Brand for dependable key steel performance

Product Code: KS12X12MMSS

Specifications

Outdoor Use	No
Indoor Use	Yes
Hardware Included	Yes
Appearance	
Product Colour	Silver
Construction	
Product Material 1	303/304 Stainless Steel

Weights

Product Weight (grams)	350
Product Weight (kg)	0.35

Dimensions

Product Height (mm)	125
Product Width (mm)	12
Product Length (mm)	12

Specifications

Unit of Measure	Metric
