

Description

SIT Steel Crimped End Brush 20mm x M6 is designed with crimped steel wire and a silver finish to deliver effective surface treatment and finishing for maintenance and component preparation. It operates reliably at speeds up to 18000 RPM, providing trade professionals with a tool that facilitates precise cleaning and deburring operations indoors or outdoors. The design emphasises durability, practical performance and ease of use in routine industrial applications.

Features

- Durable silver steel construction for reliable deburring performance
- Crimped wire design secures robust bristle retention
- Operates up to 18000 rpm for fast material removal
- Precise crimping enhances consistency and brush life
- Engineered for high-speed performance in demanding applications
- Suitable for indoor and outdoor operations
- Precision crafted for consistent maintenance and cleaning outcomes
- Compact design facilitates efficient tool integration and replacement

Product Code: P20
