

Description

SIT Steel Crimped End Brush 30mm x M6 is a precision cleaning and deburring tool designed to offer reliable performance for industrial and trade professionals. Its steel crimped wire construction and silver finish provide durability and efficiency when used in surface preparation tasks. The brush accommodates speeds up to 15000 RPM, making it well-suited for both indoor and outdoor applications. Its practical design supports consistency and ease of use in various maintenance and finishing tasks.

Features

- Robust steel construction engineered for sustained performance
- Crimped wire design offers precise, consistent cleaning action
- Suitable for controlled indoor and outdoor maintenance tasks
- Operates reliably at up to 15000 revolutions per minute
- Precision brush tips remove material with dependable outcome
- Designed for high-speed operations where durability is required
- Simple construction minimises maintenance time and cost
- Silver finish enhances longevity with reduced wear and tear

Product Code: P30
