

Description

Easyroll Pneumatic Reducer Sleeve 20mm Bore is a product designed to optimise the performance of wheel assemblies. It is manufactured from durable polypropylene and features a grey finish. The design incorporates a pneumatic wheel made of nylon paired with a plain bearing in a centred configuration. Suitable for both indoor and outdoor applications, it offers precise wheel reduction that enhances alignment and operational efficiency for trade and industrial professionals.

Features

- Manufactured in grey polypropylene sleeve for reliable performance
- Nylon pneumatic wheels provide smooth steady movement
- Plain bearing design reduces friction during rotation
- Centre wheel offset delivers balanced load distribution
- Compatible with both indoor and outdoor applications
- Plain bearing construction simplifies maintenance and routine operations
- Engineered for precision fit on various equipment models
- Easyroll design ensures reliable practical performance

Product Code: REDBUSH20

Specifications

Bearing Type	Plain Bearing
Wheel Offset	Centred
Outdoor Use	Yes
Indoor Use	Yes
Hardware Included	No

Appearance

Product Colour	Grey
----------------	------

Construction

Product Material 1	Polypropylene
Wheel Material	Nylon

Dimensions

Axle Bore ID (mm)	20
Product Height (mm)	31.5
Product Width (mm)	31.5
Product Length (mm)	2
Suits Axle Size (mm)	20

Weights

Product Weight (grams)	10
