

Description

Easyroll Pneumatic Reducer Sleeve 3/4" Bore is designed for efficient wheel diameter reduction in applications that require practical handling and consistent performance. The product is constructed from durable polypropylene with a centred wheel offset, featuring a pneumatic nylon wheel paired with a plain bearing. It provides reliable operation in both indoor and outdoor settings, supporting the smooth facilitation of movement in warehouses, distribution centres and similar environments for trade professionals.

Features

- Made from durable polypropylene for reliable performance
- Features a black finish suited to varied settings
- Incorporates plain bearings for smooth rotation and handling
- Pneumatic wheels in nylon offer quiet, smooth movement
- Centred wheel offset delivers balanced load distribution
- Provides both indoor and outdoor performance versatility
- Designed for straightforward integration into existing equipment setups
- Engineered for long-lasting reliability with quality construction

Product Code: REDBUSH3/4

Specifications

Bearing Type	Plain Bearing
Wheel Offset	Centred
Outdoor Use	Yes
Indoor Use	Yes
Hardware Included	No

Appearance

Product Colour	Black
----------------	-------

Construction

Product Material 1	Polypropylene
Wheel Material	Nylon

Dimensions

Axle Bore ID (IN)	3/4
Product Height (mm)	31.5
Product Width (mm)	31.5
Product Length (mm)	2
Suits Axle Size (IN)	3/4

Weights

Product Weight (grams)	10
