

Description

Easyroll M12-M10 Metal Reducing Bush is designed for precise wheel size adjustment and dimension reduction in various applications. The component is manufactured from robust steel and features a silver finish, ensuring dependable performance in both indoor and outdoor settings. Trade professionals can utilise its technical advantages in machinery calibration and equipment maintenance, making it a practical solution for optimising operational efficiency and ensuring consistent wheel alignment.

Features

- Constructed of robust steel for reliable performance
- Precision engineering maintains correct wheel alignment
- Silver finish aids identification during routine inspections
- Engineered design reduces wheel transition demands
- Compatible with existing Easyroll system installations
- Designed for indoor and outdoor applications
- Streamlined design eases maintenance and component replacement
- Accurate machining supports smooth wheel operation

Product Code: REDBUSH

Specifications

Outdoor Use	Yes
Indoor Use	Yes
Hardware Included	No

Appearance

Product Colour	Silver
----------------	--------

Construction

Product Material 1	Steel
--------------------	-------

Dimensions

Product Height (mm)	12
Product Width (mm)	17
Product Length (mm)	17
Mounting Size (G) mm	M12

Weights

Product Weight (grams)	5
