

Description

Precision Brand Steel Shim in a Box 12"x120"x0.008" 1008 to 1010 Steel is a precise tool designed to provide accurate spacing adjustments for alignment and support applications. Constructed from 1008 to 1010 full hard steel, the shim roll in a box offers consistent dimensions and reliability for professionals engaged in trade activities. Its measured construction and clear design facilitate dependable, repeatable operations within controlled settings.

Features

- Constructed from 1008 to 1010 hard steel
- Precision engineered shim roll for reliable accurate adjustments
- Silver finish aids clear identification on work surfaces
- Compact box design simplifies storage and on-site handling
- Consistent shim thickness enables precise alignment and measurement
- Durable construction withstands rigorous daily technical applications
- Dimensioned at 12 by 120 by 0.008 inches
- Ideal solution for precision adjustments in engineering tasks

Product Code: SHIM16405

Specifications

Outdoor Use	No
Indoor Use	Yes
Hardware Included	No
Unit of Measure	Imperial

Appearance

Product Colour Silver

Construction

Product Material 1 1008 to 1010 Full Hard Steel
