

Description

Precision Brand Steel Shim in a Box 6"x100"x0.015" 1008 to 1010 Steel is a precision-engineered shim roll designed for accurate adjustments in equipment assembly and maintenance. It is constructed from 1008 to 1010 full hard steel with a silver finish and provided in a compact box, ensuring easy storage and handling. The product supports exact measurements in imperial units and is ideally suited for professionals requiring dependable, repeatable precision in their repair and alignment tasks.

Features

- Constructed from 1008 to 1010 full hard steel
- Silver finish aids quick identification in use
- Packaged in a convenient box for efficient storage
- Shim roll dimensions 6 x 100 x 0.015 inches
- Measured using imperial system for engineering practices
- Robust design supports precise alignment and gap management
- Engineered for accuracy in spacing and dimension control
- Ideal for repeatable and efficient shimming applications
