

Description

Precision Brand Shim in a Box 12"x50"x0.008" 302 Stainless Steel is a precision-engineered shim roll designed for accurate fit adjustments in various assemblies. This product provides consistent thickness and robust 302 stainless steel construction in a practical silver finish. It is ideally suited for tasks involving spacing calibration and alignment, offering reliable performance for trade professionals in both indoor and outdoor environments. The unit of measure is Imperial, ensuring clear, standardised dimensions.

Features

- Precision engineered shim roll is built with 302 stainless steel
- Reliable silver finish withstands indoor use and outdoor challenges
- Compact design integrates roll storage and ease of access
- Consistent dimensions in imperial units optimise measurement accuracy
- Durable build supports long term precision and reliable adjustments
- Simple setup allows rapid installation and straightforward maintenance
- Uniform shim thickness facilitates repeatable alignment and measurement
- Robust construction delivers dependable performance and longevity
