

SHIM SLOTTED S/S 10PK 75X75X22 0.20MM

SHIM81320 PRECISION BRAND SHIM SLOTTED S/S 10PK 75X75X22
0.20MM

This precision-engineered shim is crafted from 300 series stainless steel that resists rust and corrosion. Designed for DIY enthusiasts, it ensures reliable performance in various applications, including precise adjustments and alignment tasks. The pre-cut pieces eliminate the need for hand cutting and deburring, minimising material waste. The shim's dimensions and clear thickness markings, provided in both decimal and metric, offer an economical and safe solution for practical adjustments.

Key Features:

- Manufactured from durable 300 series stainless steel for optimal corrosion resistance
- Pre-cut design ensures precise fitting with minimal material waste and labour
- Clear thickness markings in both decimal and metric for accurate adjustments
