

Description

Easyroll Heavy Duty Drum Dolly 410kg is designed for trade professionals to streamline the handling of drums in various settings. It features a steel frame, ball bearing system, carbon steel bearings and polyurethane foam wheels with polypropylene cores. The grey and red silver design provides clear visual identification. The dolly is engineered for reliable manoeuvrability and durability, supporting efficient drum transport and saving time during routine operations.

Features

- Robust steel frame enhances durability and load support
- Polypropylene wheel cores reduce weight and increase life
- Polyurethane foam wheels provide stable movement over surfaces
- Ball bearings constructed from carbon steel ensure smooth rotation
- Designed for both indoor and outdoor operation
- Compact dolly design simplifies drum handling and transport
- Easyroll design tailored for heavy duty drum loads
- Simple structure improves efficiency and on site practicality

Product Code: TDD410

Specifications

Hardware Included	No
Outdoor Use	Yes
Indoor Use	Yes
Bearing Type	Ball Bearing

Appearance

Product Colour	Grey/Red Silver
----------------	-----------------

Construction

Wheel Core Material	Polypropylene
Wheel Material	Polyurethane
Bearing Material	Carbon Steel
Frame Material	Steel

Dimensions

Wheel Diameter (mm)	75
Product Height (mm)	1170
Product Width (mm)	610
Product Length (mm)	610
Wheel Width (mm)	32

Weights

Product Weight (kg)	0.63
Load Capacity kg	410.0
