

HYDRAULIC LIFTING TROLLEY 227KG

THLT227 easyroll HYDRAULIC LIFTING TROLLEY 227KG is a scissor trolley designed for moving heavy loads in demanding DIY projects. Its foot operated hydraulic system lifts smoothly and quietly, assisting in safe material transport. The mechanism is supported by dual swivel castors with locks and a conveniently positioned release lever. The robust, high quality construction with powder coated finish offers durability and dependable performance for both domestic and workshop environments.

Key Features:

- Foot operated hydraulic ram system ensures quiet, smooth lifting performance.
- Dual swivel castors equipped with secure lock mechanism provide stable trolley positioning.
- Convenient hand release lever streamlines operation and facilitates efficient load release.
- Robust scissor design with powder coated finish ensures durability during intensive DIY tasks.
