

Description

Easyroll Tub Dolly 400kg is constructed using plastic, rubber and steel components, ensuring durability and ease of use in indoor applications. It features a glass reinforced polypropylene deck and steel wheel cores with rubber wheels and roller bearings, delivering dependable performance. This tub dolly provides efficient load movement and precision in logistical operations, making it a practical tool for trade professionals seeking robust and thoughtfully engineered equipment.

Features

- Robust tub dollies for efficient material transport
- High-performance roller bearing wheels ensure smooth movement
- Enhanced load-bearing glass reinforced polypropylene deck for stability
- Heavy-duty steel components provide lasting structural support
- Reliable rubber wheels deliver consistent traction on surfaces
- Durable plastic and rubber design minimises maintenance needs
- Complete hardware simplifies assembly and installation
- Engineered for dependable indoor use in controlled settings

Product Code: TTD400

Specifications

Hardware Included	Yes
Outdoor Use	No
Indoor Use	Yes
Assembly Required	No
Bearing Type	Roller Bearing

Appearance

Product Colour	Black
----------------	-------

Construction

Deck Material	Glass Reinforced Polypropylene
Wheel Core Material	Steel
Wheel Material	Rubber
Bearing Material	Bearing Steel

Dimensions

Product Length mm	614
Product Width mm	405
Product Height mm	193
Swivel Radius mm	700
Deck Thickness (mm)	6.7

Weights

Product Weight (kg)	7.049
Load Capacity kg	400.0
