

## Description

Easyroll 125mm Grey Rubber Wheel Precision Bearing 130kg is a reliable medical wheel product designed for indoor use. Constructed with a polypropylene wheel core and hub, the wheel features a thermoplastic rubber outer component and precision steel bearings. Its robust design ensures smooth movement and enhanced load-bearing capability, supporting precision and dependable performance during daily applications in healthcare settings and by trade professionals. The integrated hardware adds to its ease of installation and long-term reliability.

## Features

- Precision steel bearings deliver smooth, reliable wheel rotation
- Polypropylene hub and core ensure durable, lightweight structure
- Thermoplastic rubber promises robust performance and wear resistance
- 125mm dimensions support easy manoeuvring and transport
- Designed for indoor use with stable, secure rolling
- Engineered for precision with a focus on technical reliability
- Easyroll design meets modern functional requirements without compromise
- Hardware included for quick installation and secure attachment

**Product Code: W44K125**

## Specifications

Bearing Type	Precision Bearing
Outdoor Use	No
Indoor Use	Yes
Hardware Included	Yes

## Weights

Load Capacity kg	100.0
------------------	-------

## Appearance

Product Colour	Grey
----------------	------

## Construction

Wheel Core Material	Polypropylene
Wheel Material	Thermoplastic Rubber
Bearing Material	Steel
Hub Material	Polypropylene

## Dimensions

Tread Width	31
Axle Bore ID (F)	8
Wheel Width (C)	32
Wheel Diameter (A)	125

## Weights

Product Weight (grams)	306
Product Weight (kg)	0.301
