

Description

Easyroll 75mm Grey Rubber Wheel Precision Bearing 90kg is a medical wheel constructed with a polypropylene hub, polypropylene core and thermoplastic rubber for durability. Precision steel bearings contribute to consistent, smooth rotation, offering a reliable indoor solution for trade professionals. The product comes complete with integrated hardware and is engineered to provide effective movement and optimal load distribution in settings requiring practical, dependable performance.

Features

- Thermoplastic rubber wheel resists wear under frequent use
- Precision steel bearing delivers reliable performance and smooth rotation
- Polypropylene hub and wheel core provide robust structural strength
- Easyroll design offers consistent stability and easy maintenance
- Enables precise manoeuvring in varied professional settings
- Grey finish integrates well with diverse interior decors
- Robust construction minimises downtime during heavy usage
- Hardware components included for straightforward installation and reliability

Product Code: W44K75

Specifications

Bearing Type	Precision Bearing
Outdoor Use	No
Indoor Use	Yes
Hardware Included	Yes

Weights

Load Capacity kg	80.0
------------------	------

Appearance

Product Colour	Grey
----------------	------

Construction

Wheel Core Material	Polypropylene
Wheel Material	Thermoplastic Rubber
Bearing Material	Steel
Hub Material	Polypropylene

Dimensions

Tread Width	32
Axle Bore ID (F)	8
Wheel Width (C)	32
Wheel Diameter (A)	75

Weights

Product Weight (grams)	135
Product Weight (kg)	0.134
