

## Description

Easyroll 125mm Urethane Wheel Precision Bearing 100kg is a grey medical wheel constructed with a polypropylene core and hub, polyurethane outer material, and precision steel bearings. It is engineered to provide dependable performance in outdoor applications and supports trade professionals with smooth movement and load-bearing capacity. The product's mechanical design and robust hardware integration deliver practical benefits in settings where consistent mobility and reliability are required.

## Features

- Precision steel bearings reduce friction in rotation
- Durable polyurethane wheel delivers consistent load performance
- Polypropylene wheel core and hub support structural integrity
- Supports operating loads up to 100 kg
- Engineered for outdoor use in challenging conditions
- Smooth wheel design enables improved manoeuvrability
- Hard wearing urethane construction withstands abrasive surfaces
- Includes hardware for secure and straightforward installation

**Product Code: W45K125**

## Specifications

Bearing Type	Precision Bearing
Outdoor Use	Yes
Indoor Use	No
Hardware Included	Yes

## Weights

Load Capacity kg	100.0
------------------	-------

## Appearance

Product Colour	Grey
----------------	------

## Construction

Wheel Core Material	Polypropylene
Wheel Material	Polyurethane
Bearing Material	Steel
Hub Material	Polypropylene

## Dimensions

Tread Width	32
Axle Bore ID (F)	8
Wheel Width (C)	32
Wheel Diameter (A)	125

## Weights

Product Weight (grams)	310
Product Weight (kg)	0.307
