

Description

Easyroll 150mm Urethane Wheel Precision Bearing 120kg is a durable medical wheel engineered for precise mobility and load handling. It features a polypropylene wheel core and hub, a polyurethane wheel, and precision steel bearings for smooth operation under heavy use. The integrated hardware facilitates straightforward installation and maintenance, offering trade and healthcare professionals reliable performance and consistent movement in outdoor settings.

Features

- Precision bearing offers smooth reliable wheel movement
- 150mm urethane wheel for robust performance
- Polypropylene core for lightweight yet resilient construction
- Steel precision bearings offer smooth low friction rolling
- Durable polyurethane material resists wear outdoors
- Polypropylene hub enhances overall wheel structural integrity
- Included mounting hardware ensures robust wheel installation
- Easyroll design meets practical performance and construction requirements

Product Code: W45K150

Specifications

Bearing Type	Precision Bearing
Outdoor Use	Yes
Indoor Use	No
Hardware Included	Yes

Weights

Load Capacity kg	120.0
------------------	-------

Appearance

Product Colour	Grey
----------------	------

Construction

Wheel Core Material	Polypropylene
Wheel Material	Polyurethane
Bearing Material	Steel
Hub Material	Polypropylene

Dimensions

Tread Width	30
Axle Bore ID (F)	8
Wheel Width (C)	32
Wheel Diameter (A)	150

Weights

Product Weight (grams)	410
Product Weight (kg)	0.412
