

Description

Easyroll 100mm Urethane Wheel Roller Bearing 250kg features a design that integrates a polyamide wheel core with polyurethane wheels and stainless steel bearings, ensuring robust performance. It delivers smooth, consistent movement for material handling and logistical tasks. The combination of white and red aesthetics with reliable construction provides effective operational support for trade professionals seeking a dependable wheel solution across various settings.

Features

- Durable stainless steel bearing assures smooth and reliable rotation
- High-quality polyurethane wheel supports dependable performance and longevity
- Built with a polyamide wheel core for enhanced durability
- Designed for both indoor and outdoor applications featuring versatility
- Constructed with distinct white and red finish for clear identification
- Stainless steel bearing construction ensures robust low maintenance operation
- Engineered for reliable heavy load performance up to 250kg
- Polyamide hub and wheel core contribute to lasting performance

Product Code: W50R100SS

Specifications

Bearing Type	Stainless Steel Bearing
Outdoor Use	Yes
Indoor Use	Yes
Hardware Included	No

Weights

Load Capacity kg	280.0
------------------	-------

Appearance

Product Colour	White/Red
----------------	-----------

Construction

Wheel Core Material	Polyamide
Wheel Material	Polyurethane
Bearing Material	Stainless Steel
Hub Material	Polyamide

Dimensions

Tread Width	33
Axle Bore ID (F)	12
Wheel Width (C)	33
Wheel Diameter (A)	100

Weights

Product Weight (grams)	220
Product Weight (kg)	0.22
