

Description

Easyroll 125mm Urethane Wheel Roller Bearing 300kg is a stainless steel wheel featuring a polyurethane outer surface with a polyamide wheel core and hub, complemented by stainless steel bearings. It is engineered to deliver consistent movement and load support for a range of professional applications. The white and red design assists in easy visual identification, while its technical configuration supports efficient load transfer and reliable performance for trade professionals.

Features

- Stainless steel bearing provides smooth rotation
- 125mm wheel diameter ensures precise load management
- Supports loads up to 300kg during frequent use
- Polyurethane wheel material offers enhanced resistance to impact
- Polyamide wheel core ensures stable structure and precise handling
- Polyamide hub supports steady performance with minimal maintenance
- Dual indoor and outdoor use for versatile application
- Engineered construction promotes durability under continuous operation

Product Code: W50R125SS

Specifications

Bearing Type	Stainless Steel Bearing
Outdoor Use	Yes
Indoor Use	Yes
Hardware Included	No

Weights

Load Capacity kg	280.0
------------------	-------

Appearance

Product Colour	White/Red
----------------	-----------

Construction

Wheel Core Material	Polyamide
Wheel Material	Polyurethane
Bearing Material	Stainless Steel
Hub Material	Polyamide

Dimensions

Tread Width	35
Axle Bore ID (F)	15
Wheel Width (C)	35
Wheel Diameter (A)	125

Weights

Product Weight (grams)	350
Product Weight (kg)	0.35
