

Description

Easyroll 100mm Grey Rubber Wheel Precision Bearing 100kg is a stainless steel wheel system built with a thermoplastic rubber wheel and ball bearings made of stainless steel. It features a polypropylene wheel core and hub, offering dependable rolling performance for precise load handling. Engineered for both indoor and outdoor use, it provides industrial and trade professionals with a robust solution designed for practical applications and consistent operational efficiency.

Features

- Thermoplastic rubber wheel for reliable performance
- Stainless steel ball bearings ensure precision rotation
- Polypropylene wheel core provides consistent durability
- Polypropylene hub minimises friction during use
- Designed for indoor and outdoor settings
- Robust design withstands a 100kg load capacity
- Hardware included for complete installation
- Available in silver, black and grey finishes

Product Code: W62K100SS

Specifications

Bearing Type	Ball Bearing
Outdoor Use	Yes
Indoor Use	Yes
Hardware Included	Yes

Weights

Load Capacity kg	100.0
------------------	-------

Appearance

Product Colour	Silver/Black/Grey
----------------	-------------------

Construction

Wheel Core Material	Polypropylene
Wheel Material	Thermoplastic Rubber
Bearing Material	Stainless Steel
Hub Material	Polypropylene

Dimensions

Tread Width	32
Axle Bore ID (F)	8.2
Wheel Width (C)	32
Wheel Diameter (A)	100

Weights

Product Weight (grams)	209
Product Weight (kg)	0.209
