

Description

Easyroll 125mm Grey Rubber Wheel Precision Bearing 100kg is engineered for precise movement and reliable support in demanding applications. It utilises a thermoplastic rubber wheel with a polypropylene core, complemented by a stainless steel ball bearing to provide smooth, consistent performance on both indoor and outdoor surfaces. The robust polypropylene hub and included hardware ensure secure installation, making it a practical solution for trade professionals seeking dependable technical advantages.

Features

- Durable thermoplastic rubber wheel provides smooth movement
- Stainless steel ball bearings ensure precise, quiet rotation
- Polypropylene core and hub yield robust structural support
- 125mm diameter supports up to 100kg load capacity
- Versatile design functions indoors and outdoors
- Precision bearing construction for enhanced performance in demanding tasks
- Hardware supplied for efficient installation and secure mounting
- Elegant silver, black and grey finish complements various aesthetics

Product Code: W62K125SS

Specifications

Bearing Type	Ball Bearing
Outdoor Use	Yes
Indoor Use	Yes
Hardware Included	Yes

Weights

Load Capacity kg	100.0
------------------	-------

Appearance

Product Colour	Silver/Black/Grey
----------------	-------------------

Construction

Wheel Core Material	Polypropylene
Wheel Material	Thermoplastic Rubber
Bearing Material	Stainless Steel
Hub Material	Polypropylene

Dimensions

Tread Width	32
Axle Bore ID (F)	8.2
Wheel Width (C)	32
Wheel Diameter (A)	125

Weights

Product Weight (grams)	290
Product Weight (kg)	0.29
