

## Description

Easyroll 75mm Grey Rubber Wheel Precision Bearing 80kg is a stainless steel wheel that features a thermoplastic rubber design, a polypropylene core and hub, and a stainless steel ball bearing. Suitable for varied trade applications, its construction provides consistent rolling performance and efficient load distribution. The product is designed for both indoor and outdoor environments, and the included hardware facilitates a straightforward installation process for reliable equipment integration.

## Features

- Durable thermoplastic rubber surface provides consistent traction
- Stainless steel ball bearings deliver smooth reliable rotation
- Polypropylene core and hub deliver lasting structural strength
- Versatile design supports indoor and outdoor operation
- High precision bearings support stable movement under load
- Robust construction provides reliable performance over repeated use
- Engineered for smooth manoeuvrability in tight spaces
- Simple hardware installation enables quick fitting

**Product Code: W62K75SS**

## Specifications

Bearing Type	Ball Bearing
Outdoor Use	Yes
Indoor Use	Yes
Hardware Included	Yes

## Weights

Load Capacity kg	80.0
------------------	------

## Appearance

Product Colour	Silver/Black/Grey
----------------	-------------------

## Construction

Wheel Core Material	Polypropylene
Wheel Material	Thermoplastic Rubber
Bearing Material	Stainless Steel
Hub Material	Polypropylene

## Dimensions

Tread Width	32
Axle Bore ID (F)	8.6
Wheel Width (C)	32
Wheel Diameter (A)	75

## Weights

Product Weight (grams)	133
Product Weight (kg)	0.133
