

Description

Easyroll 100mm Urethane Wheel Precision Bearing 100kg integrates a stainless steel ball bearing within a durable configuration that includes a polypropylene wheel core and hub paired with polyurethane wheels. Engineered for accurate rotation and steady load distribution, it supports both indoor and outdoor use. Its design facilitates smooth movement and ease of installation, making it a practical solution for trade professionals requiring dependable, high-performance rolling applications.

Features

- Durable stainless steel bearing ensures precision and smooth rotation
- Polyurethane wheel provides longevity for rigorous tasks
- Precision design promotes smooth and consistent rotation
- Polypropylene hub and core enhance balanced weight distribution
- 100mm diameter size supports versatile applications and manoeuvrability
- Precision ball bearing ensures effortless movement under operational loads
- Easy installation with included hardware simplifies integration
- Sturdy construction suitable for both indoor and outdoor use

Product Code: W63K100SS

Specifications

Bearing Type	Ball Bearing
Outdoor Use	Yes
Indoor Use	Yes
Hardware Included	Yes

Weights

Load Capacity kg	100.0
------------------	-------

Appearance

Product Colour	Silver/Black/Grey
----------------	-------------------

Construction

Wheel Core Material	Polypropylene
Wheel Material	Polyurethane
Bearing Material	Stainless Steel
Hub Material	Polypropylene

Dimensions

Tread Width	32
Axle Bore ID (F)	8.2
Wheel Width (C)	32
Wheel Diameter (A)	100

Weights

Product Weight (grams)	213
Product Weight (kg)	0.213
