

Description

Easyroll 125mm Urethane Wheel Precision Bearing 100kg is a polyurethane and stainless steel composite wheel designed for precise movement applications. It features a polypropylene wheel core and hub with ball bearing units, offering consistent rotational performance for trade professionals. The silver, black and grey finish provides reliability and control, while the included hardware ensures straightforward integration in various operational settings.

Features

- 125mm urethane wheel engineered for precise bearing performance
- Stainless steel ball bearings deliver dependable rotational smoothness
- Robust polyurethane wheel material ensures high load handling
- Polypropylene core and hub offer reliable structural support
- Designed for reliable use in indoor and outdoor settings
- Silver black grey finish adds versatility for various applications
- Integrated hardware simplifies installation and secure mounting
- Easyroll quality ensures dependable performance across demanding operations

Product Code: W63K125SS

Specifications

Bearing Type	Ball Bearing
Outdoor Use	Yes
Indoor Use	Yes
Hardware Included	Yes

Weights

Load Capacity kg	100.0
------------------	-------

Appearance

Product Colour	Silver/Black/Grey
----------------	-------------------

Construction

Wheel Core Material	Polypropylene
Wheel Material	Polyurethane
Bearing Material	Stainless Steel
Hub Material	Polypropylene

Dimensions

Tread Width	32
Axle Bore ID (F)	8.2
Wheel Width (C)	32
Wheel Diameter (A)	125

Weights

Product Weight (grams)	306
Product Weight (kg)	0.306
