

## Description

Easyroll 100mm Cast Iron Wheel Precision Bearing 450kg is a robust heavy duty wheel designed for reliable use in a range of applications. Constructed from cast iron with a precision bearing made from carbon, it provides consistent performance and durability. Its black finish and solid build make it particularly well suited for trade professionals requiring dependable technical attributes and practical usage for both indoor and outdoor tasks.

## Features

- Robust cast iron wheel core maintains structural integrity
- Cast iron hub ensures stability and long service life
- Precision carbon bearings provide smooth, reliable rotation
- Designed for both indoor and outdoor practical use
- Heavy duty wheel supports loads up to 450kg
- Large 100mm diameter facilitates manoeuvring heavy equipment
- Durable black finish resists wear during extended use
- Engineered for reliable performance under heavy usage conditions

**Product Code: W82K100**

## Specifications

Bearing Type	Precision Bearing
Outdoor Use	Yes
Indoor Use	Yes
Hardware Included	No

## Weights

Load Capacity kg	450.0
------------------	-------

## Appearance

Product Colour	Black
----------------	-------

## Construction

Wheel Core Material	Cast Iron
Wheel Material	Cast Iron
Bearing Material	Carbon
Hub Material	Cast Iron

## Dimensions

Tread Width	48.5
Axle Bore ID (F)	12.2
Wheel Width (C)	50
Wheel Diameter (A)	100

## Weights

Product Weight (grams)	1492
Product Weight (kg)	1.492
