

Description

Easyroll 200mm Cast Iron Wheel Precision Bearing 640kg is a heavy duty wheel product that features a robust cast iron construction complemented by a precision carbon bearing for smooth operation. It is designed for use in a range of settings, offering a practical solution for professionals in trade who require consistent performance in material and load handling applications. The wheel's all-cast iron build provides reliable durability and efficient movement across various environments.

Features

- Durable cast iron wheel construction supports heavy loads
- Precision carbon bearings ensure smooth rotation
- Cast iron hub and core deliver robust stability
- Suitable for both indoor and outdoor application
- Heavy duty wheels designed for precise performance
- Engineered cast iron design withstands challenging operational use
- Carbon precision bearings maintain reliable rotational accuracy
- Extensive cast iron components enhance durability and strength

Product Code: W82K200

Specifications

Bearing Type	Precision Bearing
Outdoor Use	Yes
Indoor Use	Yes
Hardware Included	No

Weights

Load Capacity kg	640.0
------------------	-------

Appearance

Product Colour	Black
----------------	-------

Construction

Wheel Core Material	Cast Iron
Wheel Material	Cast Iron
Bearing Material	Carbon
Hub Material	Cast Iron

Dimensions

Tread Width	50.5
Axle Bore ID (F)	12.2
Wheel Width (C)	50
Wheel Diameter (A)	200

Weights

Product Weight (grams)	3125
Product Weight (kg)	3.125
