

Description

Easyroll 150mm Elastic Rubber Wheel Precision Bearing 300kg is a heavy duty wheel designed with robust polypropylene and rubber components, complemented by precision carbon bearings for enhanced smooth operation. Intended for diverse applications in material handling and equipment mobility, this product offers consistent performance and reliability. Its design supports both indoor and outdoor use, providing trade professionals with practical advantages in operational efficiency and dependable rotational movement.

Features

- Heavy duty wheel supports 300kg load capacity
- Robust rubber wheel with durable construction
- Precision carbon bearings deliver smooth rotation
- Polypropylene hub and core resist wear
- Designed for indoor and outdoor applications
- Distinct red and black wheel colour for identification
- Precision bearing system ensures reliable rotational performance
- Engineered for heavy duty use with long service life

Product Code: W83K150

Specifications

Bearing Type	Precision Bearing
Outdoor Use	Yes
Indoor Use	Yes
Hardware Included	No

Weights

Load Capacity kg	200.0
------------------	-------

Appearance

Product Colour	Black/Red
----------------	-----------

Construction

Wheel Core Material	Polypropylene
Wheel Material	Rubber
Bearing Material	Carbon
Hub Material	Polypropylene

Dimensions

Tread Width	40
Axle Bore ID (F)	12.2
Wheel Width (C)	50
Wheel Diameter (A)	100

Weights

Product Weight (grams)	979
Product Weight (kg)	0.979
